EXPERIENCE

Open source contribution

- Check out my github profile to see my open source contribution and the projects i have build

Jun 2024 – Aug 2024
github **2021-2024**

SKILLS

Framework NextJS, ReactJS

Languages C++ , Java, Javascript , Typescript

Tools VScode, Ubuntu, Postman, Linux ,Git ,Docker

Database MongoDB, SQL, postgresql

Others Clerk ,Zustand ,Convex ,Blocknote ,Zod
,React-Hook-form

PROJECTS

Jotion

Jun 2024 – Aug 2024

- Tech Stack :Next.js,Convex , Shadcn, Clerk, Tailwind CSS, TypeScript, Blocknote React ,Edgestore ,Radix-ui ,emoji-picker-react ,lucide-react ,react-textarea-resize ,zod ,zustand ,sonner
- Its a saas app (software as a service)
- here you can sign in through clerk github or google. then headover to dashboard where you can create new pages and thier children you can give them custom name an emoji as well as cover image
- thanks to Blacknote you have a rich tet editor which alloes you varities of headings ,bullet points and even upload images
- images are uploaded on edgestore
- after that you can publish your work which has a unique url and you can show that to anyone
- building this project taught me how to create complex Api and beautiful UI as well as how to deal with Convex and Blacknote

IssueTracker

Apr 2024 – Jun 2024

- Tech Stack :Next.js,Docker , Radix UI, Shadcn, Clerk, Tailwind CSS, Zod, TypeScript, MongoDB, React-heatmaps and React Hook Form.
- Its a Full Stack App its main purpose is to practice how to create a good issue learn about markdown so instead of doing that on a actual repository you can do that here
- after logging in through clerk github or google you see a informative landing page build with recharts.js which shows you the distribution of issues and a compoenent which render latest issues along with through the help of reactheatmap you can see your contribution date
- now heading over to issues tab you can now see all the issues filter them by tag and create new issues and further more you can edit thier tag after creatiom

React Chat App

Mar 2022

- Tech Stack Socket.io react Firebase
- A platform where you can chat sort of like a telegram group
- here every person who joins is on the same group to create one global group

Arcade

Apr 2023

- Tech Stack :Nextjs , Docker
- Its a classic game which is called Plinkoo. This project requires physics and programming skills
- this project is still in development stage hence we will be adding more features to it

EDUCATION

GGSIPU

BTECH IN INFORMATION TECHNOLOGY : CGPA:7.8

subjects :java ,c++ ,oops ,Mern ,web tech ,Data Structure ,C

SENIOR SECONDARY EDUCATION

- CBSE Spring meadows public school 12th Subjects:Physics ,Chemistry ,Maths ,Computer science ,English - 82
- CBSE Spring meadows public school 10th Subjects: English , Hindi ,Maths ,Science ,Social Studies - 79.6

ACHIEVEMENTS

Leetcode

- More than 100 questions on leetcode.Involving all data structure and a lot of algorithm

Github

- more than 30 projects on github and active contributor involving a lot of languages and frameworks as well as a lot of open source libraries
